

Find the Course That's Right for You

For nearly 70 years, we have been pioneers in teaching Czech as a foreign language. Whether you're looking for a flexible schedule or an intensive course, **we have the perfect program tailored to your goals and language level.**

Moemi, Japan

„UJOP is not an ordinary language school, it provides experiences that help you to enjoy life here. During the three semesters I learned to communicate in the Czech language. We learnt practical skills, such as how to make phone calls or write emails in Czech. We also learned interesting things about Czech culture. Teachers at UJOP are very nice, kind and, in my opinion, they love their job.“

We organize **Czech courses at all levels from A1 to C1.** You'll start in a group matched to your skill level (beginner to advanced) based on a **personalized placement test** created by Charles University experts.

Please note: The language course participants apply for a visa for the purpose of other. It is not possible to apply for a study visa for this course.

Cesar, Mexico

„My studies have given me many things, for example, I have friends in my class and I understand and speak Czech better. We have experienced a lot of things in the classroom and outside as well, just because we practice a lot of speaking and correct writing in class. My life has changed because I understand better now.“

Solhee, Korea

„I studied at UJOP in Prague. Thanks to this I am now more confident in Czech, I can talk to my teachers and classmates and my speaking has improved a lot. It improved so much that I decided to take part in a presenting competition in Czech at ÚJOP and I took second place. I was very happy about that. It helped me a lot, I can now speak Czech with Czechs quite well.“
