Andrija, Montenegro

„The two semesters I spent studying Czech at ÚJOP were crucial for my future. Not only did I learn to speak and write in Czech, but I also gained insight into Czech culture and life. I met people from all over the world, many of whom remain close to me. Without this foundation, it would have been harder for me to get into university, find a job, and feel at home in Prague and the Czech Republic.“

Nodirjon, Uzbekistan

„I chose to prepare at UJOP because it provides the best quality courses in the Czech Republic. The teachers here are really great. We didn't only study Czech, but also specialized subjects: physics, chemistry and biology. This is what helped me the most to pass the entrance exams to all 5 medical faculties of Charles University.“

Smooth Transition to University Life

Foundation programmes are tailored for students with high academic potential who need support to thrive in their university studies.

- Bridge academic gaps and prepare for university admission
- Achieve the necessary language proficiency
